JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## CUBA.

*Report from Cienfuegos—Inspection and fumigation of vessels—  
Leprosy—Stegomyia calopus present.*

Acting Assistant Surgeon Marsillan reports, May 13:

*Week ended May 11, 1907.*

Vessels inspected .....	3
Vessels inspected and fumigated .....	1
Bills of health issued .....	4
Crews inspected .....	116
Passenger inspected; alien landed here .....	1
Immune certificates issued .....	0

The Spanish steamship *Santanderino*, from Liverpool and Spanish and Cuban ports, and bound for a port in the United States, was fumigated by this office on May 10. On inspection all temperatures were found normal, except in one of the crew, who had 100° F. This was stated on the bill of health. This vessel carried 46 steerage passengers from Spain to Cuba, and of these only one remained at this port, in good health. The vessel left on the 10th instant immediately after fumigation.

No quarantinable diseases entered the port during the week, and none but leprosy was present in the city.

The sanitary condition of the city and surrounding country is fair.

*Stegomyia calopus* mosquitoes are seen in almost all quarters of the city, though oiling is carried on by local board of health.

*Report from Habana—Inspection and fumigation of vessels—Sanitary  
conditions—Yellow fever case brought from Union de Reyes—His-  
tory of case.*

Passed Assistant Surgeon Stansfield reports, May 15:

*Week ended May 11, 1907.*

Vessels inspected and bills of health issued .....	17
Vessels not inspected and bills of health issued .....	10
Crew of outgoing vessels inspected .....	733
Crew of outgoing vessels not inspected .....	333
Passengers of outgoing vessels inspected .....	724
Passengers of outgoing vessels not inspected .....	27
Vessels fumigated prior to sailing .....	4

The sanitary situation remained fairly good during the week.

May 21. One case yellow fever in Covadonga Hospital, Habana. Brought from Union de Reyes. Will wire particulars to-morrow.

May 22. Case yellow fever reported yesterday. Came from Union de Reyes. Spaniard, 16 years old; in Cuba 8 months. Taken sick May 15. Brought to Covadonga Hospital and isolated May 16. Official diagnosis made May 21. Sanitary precautions will be taken by board of health.
